Yersinia enterocolitica	0	0	1	0	0	1	0	0	0	0	1	0	2	1

*Disease made reportable in 1996.

Since only a portion of all reportable illnesses are reported, these figures represent trends rather than actual incidence. More complete reporting of cases to the Division of Public Health will result in more accurate statistics. The above figures represent both military and civilian reporting.

Note: Due to unknown residence for some cases, regions may not add to total.

Estimated Total Population 1995 — Total 615,900

Southwest	37,971	Anchorage/MatSu	308,381
Northern	22,674	Gulf Coast	72,816
Interior	99,390	Southeast	74,668
