Population estimates as of July 1, 1995	37,971		22,674		99,390		308,381		72,816		74,668		615,900	

*Became reportable in January 1996.

No cases of the following reportable diseases were reported during the above periods:

anthrax, cholera, plague, rabies (human), Reye syndrome, smallpox, typhoid, and yellow fever.

Since only a portion of all reportable illnesses are reported, these figures represent trends rather than actual incidence. More complete reporting of cases to the Division of Public Health will result in more accurate statistics. The above figures represent both military and civilian reporting.
