Population estimates as of July 1, 1997	37,682		23,142		96,886		307,297		72,076		74,217				611,300	

*Numbers for hepatitis C represent prevalent cases reported during each time period.

No cases of the following reportable diseases were reported during the above periods:

anthrax, cholera, plague, rabies (human), Reye syndrome,

smallpox, typhoid fever and yellow fever.

Since only a portion of all reportable illnesses is reported, these figures represent trends rather than actual incidence. More complete reporting of cases to the Division of Public Health will result in more accurate statistics. The above figures represent both military and civilian reporting.
